Background

University
of Glasgow

- [University of Glasgow](#):
 - « The University of Glasgow is a public research university in Glasgow, Scotland. Founded by papal bull in 1451, it is the fourth-oldest university in the English-speaking world and one of Scotland's four ancient universities. Along with the universities of Edinburgh, Aberdeen, and St Andrews, the university was part of the Scottish Enlightenment during the 18th century. » (Wikipedia)
- [Glasgow](#) :
 - «Glasgow grew from a small rural settlement on the River Clyde to become the largest seaport in Scotland, and tenth largest by tonnage in Britain. Expanding from the medieval bishopric and royal burgh, and the later establishment of the University of Glasgow in the fifteenth century, it became a major centre of the Scottish Enlightenment in the eighteenth century.» (Wikipedia)
